

NEW YORK PUBLIC LIBRARY,  
Circulation Department.

Library for the Blind,

~~444 Amsterdam Avenue~~

**476 FIFTH AVENUE**

Any blind resident of the state of New York, New Jersey or Connecticut, giving proper reference, may take out a book.

Two volumes and in addition one current magazine may be had at a time for home use.

Books will be sent by mail whenever desired, but can not be delivered by carriers. Orders may be left at any branch of the New York Public Library.

No book shall be kept out more than one month but any book may be renewed once for an additional month if application is made.

Books not returned will be sent for at the cost of the borrower, who cannot take another book until all charges are paid.

Hours for the delivery and return of books for the blind are from ~~10 to 5~~ P. M. on week days.

**9 A. M. to 5**

 Borrowers finding this book pencil-marked, mutilated or unwarrantably defaced are expected to report it to the librarian.

Per. V.5. 4757

**Keep this book Clean.**  
**Do not turn down the leaves.**  
If the book is injured, or if this slip is torn  
or defaced, a fine will be required.

[illegible]

VOL. V.

JANUARY, 1907.

No. 1.

## A Successful Year at Worcester College.

**F**ROM the Report of the Worcester College for the Higher Education of the Blind, for the year ending July 31st, 1906, we learn that about 120 pupils have passed through the College up to the present, and of these the number who have graduated at one or other of the Universities reaches the marvellous total of 55; among the distinctions are: one Fellowship; 12 open Scholarships or Exhibitions; 30 Honour Degrees in Classics, Mathematics, History, or Law; one D.D.; one D.C.L.; one Mus. Bac., a proportion of Distinctions far exceeding that of similar schools for the sighted. 30 are in Holy Orders, half as Incumbents, and many others are occupied in the Musical, Legal, and Scholastic professions.

The College is examined by the Oxford and Cambridge Joint Board, the Inspector's Report this year being extremely satisfactory.

The fees range from £50 for very young boys, up to £100, according to the student's age and circumstances. Several scholarships are available, and the Committee of Gardner's Trust have for many years very generously assisted various students at the College.

By an arrangement with this Association, the Headmaster is stereotyping a series of class books suitable for the purposes of higher education, which will not only supply a great need of the Worcester institution, but copies will be obtainable for similar purposes elsewhere. At the time of writing four are published, while a fifth is stereotyped, and will be ready this month.

It is interesting to note that both the Hon. Secretary of the College, A. W. G. Ranger, Esq., M.A., D.C.L., and the Headmaster, the Rev. T. Barnard, M.A., are former pupils at the College.

The Annual Speech Day, discontinued for some time, was revived on July 26th, 1906, and proved a most successful reunion, very many "Old Boys" being present. A full day's programme included: Service in the Lady Chapel at the Cathedral; a cricket match, Past & Present; the inevitable Speeches; Greek and Latin Recitations by students; prize distribution by Lady Cobham, etc., closing with an impromptu Concert by Old Boys and the singing of Auld Lang Syne.

## Notes by the Way.

### A KIND OFFER.

We are sure that all our Readers will be interested to know that arrangements have been made with the eminent firm of Messrs. Curry & Paxton, opticians, 195, Great Portland Street, London, W., to supply all Blind Institutions with spectacles at the reduced price of 6s. per dozen. Applications should be made direct to the firm, mentioning the name of the Secretary of this Association.

### BRAILLE POSTAGE LABELS.

The label as supplied by the Association has been specially approved by the Postmaster-General, and can be obtained from us at the following prices: 20 for 1½d.; 200 for 1s.; 1,000 for 4s., post free; or with name and address of sender printed, 1,000 for 5s., post free.

### SAN FRANCISCO READING ROOM FOR THE BLIND.

From the Year Book just to hand we are glad to note that, although the Library and contents were destroyed by the great disaster in April, the directors are energetically tackling the work of renewal, and during the interval the Lady Superintendent has endeavoured to make up for the loss as far as possible by visiting the Blind in their homes and reading to them. One praiseworthy feature of the operations in San Francisco was a Musicale, given once a month in the reading room allowed for the use of the Blind at the Public Library.

### VICTORIAN ASSOCIATION OF BRAILLE WRITERS.

The Twelfth Annual Report of the above shows that during the year 77 persons have been and are being taught Braille, with a view to transcribing books for the Library, which now contains 2,888 volumes, 211 having been added during the year. There are now 190 working members. Besides the main establishment in Melbourne there are branches at Beechworth and Ballarat. A movement has been started for paying the Blind for re-copying books for the Library, thus helping to provide for their support, and it is hoped to extend the operations in this direction as funds allow.

### INCORPORATED SOCIETY OF MUSICIANS.

The complete Syllabus for the Examinations of 1907 is now published, and can be obtained from the General Office of the Society, 19, Berners Street, W.

**ASSISTANT MATRON**, having had 6 years' experience in Blind Institutions, would like to hear of work where she can follow up her experience. Read and write Braille, needlework, etc.—L. H., 24, Compton Ave., Brighton.

**MISS BLOTT'S HOME AND SCHOOL FOR THE BLIND**, established 1888. Every home comfort for Ladies, Gentlemen, or Children. Newspapers and new books read aloud. Good education. Braille. Music, and Languages. Large house, with garden.—30, St. Charles Square, North Kensington, W.

**"The Blind Man's World"** (Dr. E. Javal's "Entre Aveugles.") *Advice to People who have recently lost their sight.* Translation by W. ERNEST THOMSON, M.A., M.D.

### PRICE THREE SHILLINGS NET.

London: Geo. Pulman & Sons, Thayer Street, W.

[The above can be obtained through the Association, price 3s. 3d. post free.]

VOL. V.

FEBRUARY, 1907.

No. 2.

## New Editor of "Progress."

TO Mr. Godfrey H. Hamilton, the late Editor of *Progress*, we owe our grateful thanks for past kindness. This magazine was practically useless to the Blind until Mr. Hamilton took it in hand some five years ago, and did the work without cost to the Association. Now what a difference; suffice it to say that it is now the leading Braille magazine throughout the world, with the largest circulation.

Reviewers, we now have the pleasure of introducing Mr. Hamilton's successor; may he carry on *Progress* with the same success! We all wish him luck.

Wilfred Mark Webb, F.L.S., Lecturer on Biology and Nature Study under the Surrey County Council, also Hon. Sec. of the Selborne Society. Born at Primrose Hill, May 28th, 1868, the only son of William James Webb ("Eastern Webb"), artist; educated at St. John's Wood School, University and King's Colleges, London, and privately engaged in tuition 1889-1892. Original member of the Malacological Society, 1893; Senior Assistant Lecturer on Biology, Essex County Council, 1894-1898; Editor of the *Journal of Malacology*, 1895-1897; Departmental Editor of *Science Gossip*, 1899-1901; Member of the Executive Committee, Imperial Vaccination League, since 1902; has actively promoted the Nature Study Movement in this country; Member of the Agricultural Education Committee since 1899; on Committee of the first Nature Study Exhibition, 1902; Honorary Secretary of that held in 1903; Honorary Secretary Country in Town Exhibition, 1906.

Publications: "Eton Nature Study Note Book," 1903; "Eton Nature Study and Observational Lessons" (with Matthew Davenport Hill), Part I., in 1903, Part II., 1904; "Record of the Loan Exhibits," "International Fire Exhibition, London," 1903; "The Principles of Horticulture," 1905; also written various papers on the anatomy and distribution of the Mollusca; many essays and articles on Natural

History, Nature Study, as well as General Education and Science : has contributed to *The Times* and other daily papers, to the *Field*, *Nature*, *Athenæum*, *Gardener's Chronicle*, and to most of the popular magazines. Recreations: Field Natural History, Archæology, and Photography. Address, 20, Hanover Square, W., and Odstock, Hanwell, W.

## Notes by the Way.

### REVISED VERSION OF THE GOSPELS.

In calling particular attention to the announcement on page 47 with regard to the Gospel according to St. John, we are pleased to announce that the Council will proceed with the other Gospels at once if sufficient appreciation is shown to warrant the heavy expense of so doing.

### BRAILLE WRITING INDICATOR.

Amongst the users of Braille Writing Frames is there one who has not been put to inconvenience after an interruption, to find where the last sign was written? To obviate this a handy little appliance has been devised, in the form of a clip to fix on the brass guide, with a pointer to indicate the last cell written in. We have received a supply from Aylesbury, and anticipate a large demand. The cost is very low, being only 2d., or by post 2½d.

### "THE CHURCH MESSENGER."

The Hon. Sec. reports that the average circulation of the Magazine during the year 1906 has been 109 copies per month. The eleventh year commences this month.

The reduction in postage on Blind Literature initiated last September [through the instrumentality of this Association—ED.], has decided those concerned in the Magazine to reduce the cost to subscribers to 10s. per annum, and it is hoped that this reduction may lead to an increased circulation. The price of single copies will be kept at 1s. All subscriptions received during 1906, having currency in 1907, have been adjusted to the new conditions of price.

### NORTH INDIA INDUSTRIAL HOME FOR CHRISTIAN BLIND.

The Annual Report of the above Home at Rajpur shows very considerable progress. In the Braille section a circle of writers in England has been occupied in writing books to such purpose that 61 volumes have been sent to Rajpur, and were received with great thankfulness, while many more were sent to other centres. In this connection it is gratifying to note that the British and Foreign Bible Society have accepted the Shirreff Braille code, which was generally in use, as the code for Urdu and Hindi Scriptures.

### CONGRATULATION.

On going to press we hear that Mr. Alec. Pearson, one of the Masters at the Royal Normal College, has obtained his B.A. degree with honours. Mr. Pearson is well known to us, and we offer him our heartiest congratulations. The honour is well deserved.

### WESTON-SUPER-MARE BLIND EXHIBITION.

Intending exhibitors at the above Exhibition can obtain the necessary certificate forms to be filled up by sending a halfpenny stamped envelope to Miss Smith, Holmwood, Weston-Super-Mare.

### BRAILLE POSTAGE LABELS.

The label as supplied by the Association has been specially approved by the Postmaster-General, and can be obtained from us at the following prices: 20 for 1½d.; 200 for 1s.; 1,000 for 4s., post free; or with name and address of sender printed, 1,000 for 5s., post free.

**LARGE DOT  
BRASS GUIDES**

(Single line), for use on Small size Frame.  
Price 2s. each.

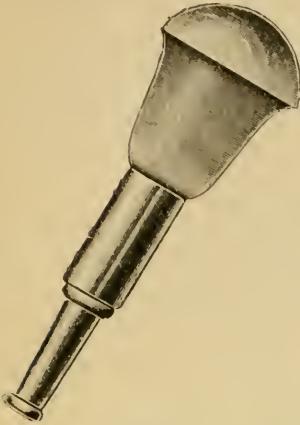

# MOLL'S SAFETY STYLE.

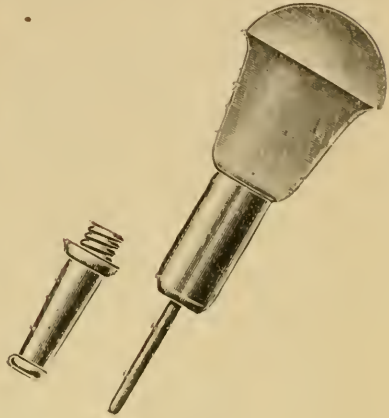

(Sole Rights secured by B. & F. B. A.)

## Further Concession in Braille Postage.

TO meet the case of the largest Braille MSS., which with the necessary packing exceed the limit of 5 lbs. recently allowed, the Postmaster General has kindly granted a further concession as from February 1st, 1907, the limit now being 6 lbs., Braille parcels weighing between 5 and 6 lbs. being charged 2½d. The other regulations still apply.

### Sightless Inventor.

FROM his seventeenth to his seventy-third year the late Dr. James Gale lived in a darkened world, yet managed to attain a degree of scholarship rarely reached by those who were more highly favoured by nature.

It was after the loss of his sight that his most famous discoveries and inventions fructified. A voltaic battery which cured a millionaire patient brought him a fee of £50,000. His discovery of a means to render gunpowder temporarily non-explosive brought him fame and honour, and he was commanded to appear at Windsor before Queen Victoria.

In a chapter of his autobiography contributed to *M.A.P.* last year he thus related the story: "Whilst I was conducting the experiments, which included stirring up a quantity of gunpowder with a red-hot poker, Prince Leopold and Princess Beatrice came into the Orangery. I was much amused at hearing the Princess remark to

the Queen in a very audible whisper, 'I thought you told me Mr. Gale was blind. I am sure he isn't. He has beautiful eyes.' 'Hush!' said the Queen, reprovingly, 'Mr. Gale is blind, but pray remember that he is not deaf.' I may say," added Dr. Gale, "without in any way endorsing the Princess's all too flattering description of my eyes, that they do not in any way present a sightless appearance; and I may add that Princess Beatrice, so I was afterwards told by Princess Mary of Teck, obstinately refused to believe I was blind."

He was a skilful skittle player, and some years after he had become totally blind made a great stir throughout Devonshire by defeating opponents with normal powers of vision. He once took part in a pigeon-shooting match. True, he only fired one shot, but he brought down his bird, and then wisely retired on his laurels. On another occasion he rode in and won a race of six miles. In fact, Dr. Gale had so developed his other senses, and particularly that of hearing, that he was able to go about in comfort unattended. To the day of his death he confessed to the weakness of a constant delight in people's refusal to believe that he was blind.

## Notes by the Way.

### **R. A. MUSIC AND R. C. MUSIC EXAMINATIONS.**

Syllabus A of the Associated Board of the Royal Academy of Music and the Royal College of Music, containing full particulars of the Local Examinations for 1907, and Syllabus B containing the School Examinations, will be published in Braille very early this month for the convenience of Blind Students who intend sitting for those examinations. (See page 4.)

### **NATIONAL LENDING LIBRARY FOR THE BLIND.**

A Dramatic Performance entitled "Mother Goose" was given for the benefit of the above on Saturday, February 2nd, 1907, in the Bijou Theatre, Archer-street, Westbourne Grove. This was well attended, and during the interval the Chairman of the Council, Douglas A. Howden, Esq., gave some interesting particulars of the history and present position of the Library. It was also announced that the effort had proved a success financially.

In connection with the Library the "Arnold" Carriage Fund has been formed to assist poor readers with the cost of carriage of books to and fro; grants of half, and in some few cases the whole cost of carriage are made. The "Dow" Blind Writers' Fund was formed to give employment to Blind writers, and at the same time add to the number of volumes in the Library.

### **OBITUARY.**

We have only recently been informed of the death of Mr. W. W. Fenn, of Hyde Park Mansions, on December 19th last, and hasten to add our tribute to the memory of an old friend of the Association, who was, in fact, associated with the late Dr. T. R. Armitage in its formation, and up to recent years was an active member of the Council.

### **SUNBEAM MISSION.**

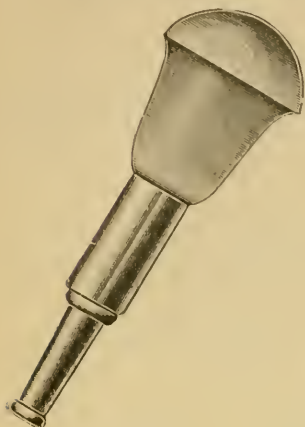

An offer has been made by the Sunbeam Mission (Branch for the Blind) to all the children belonging to the L.C.C. Schools whose names are found on its list. This offer consists of a Braille frame and a pound of paper, carriage free to every child who saves up two shillings towards it before the end of next June. It is hoped that all who do not possess this almost indispensable necessity of a blind person will manage to secure one by Midsummer. The children in London on this Sunbeam Mission list number about 200. The teachers are kindly assisting the scheme by undertaking to be their bankers till the required sum is saved.

APRIL, 1907.

No. 4.

## Death of a Founder of the Incorporated National Lending Library for the Blind.

IT is with much regret that we announce the death of Mrs. Dow, widow of Mr. James Ramsey Dow. To the relatives of the deceased lady we offer our sincere sympathy.

This lady, in co-operation with the late Miss Arnold, founded the Incorporated National Lending Library for the Blind, 125, Queen's Road, Bayswater, W., in 1882. From a very small beginning, with the help of a grant of £25 from the Gardner Trust for the Blind, and some Annual Subscriptions collected by Mrs. Dow (then Miss Howden), the good work grew, until in 1898, the year of its incorporation, the number of books was about 3,500, regularly supplying 250 readers.

Now the Library contains nearly 8,000 vols., and over 500 are added yearly; they include history, biography, poetry, fiction, children's books, and a few foreign works; there are also some 400 volumes of embossed music. The number of readers is over 500, and many Associations and Free Libraries are also supplied.

The great majority of the books are in the Braille type, which can be both read and written, and a few blind copyists are employed by the Blind Writers' Fund, established by Mrs. Dow, which serves the double purpose of giving employment to the Blind and adding volumes to the Library, in the shape of additional copies of works which are in especial demand.

The Library owes its present position very largely to the sustained interest of the deceased, and she will be greatly missed in the Blind world generally, where she was for so many years a friend and benefactor.

**HOME FOR THE MIDDLE AND UPPER CLASS BLIND.** Either Holiday or Permanent. Braille literature, Blind company, and every comfort.—MRS. DOWDESWELL, The Birches, Churchdown, near Cheltenham. [7-

## Review of a New Book.

IN Messrs. Kegan Paul's new series, the International Catholic Library, will shortly appear a work from the pen of Maurice de la Sizeranne, whose name, being itself unknown to English readers, may perhaps run the risk of being confused with that of his brother Robert, author of a very important work on Ruskin, "*La Religion de la Beauté*." A pathetic gap divides the brothers: Maurice is blind. Spending, as he does, his life in the service of his brothers and sisters in darkness, he has found time and energy, besides daily and hourly attendance at a philanthropic institution for the welfare of the Blind, to write several books, one of which boasts a preface by the poet François Coppeé, and another was crowned by the French Academy. In the present volume the author calls to us, out of the darkness, which for him is peopled with all the beautiful thoughts of those he is helping, to rejoice at the many consolations which such of the afflicted as have not lost faith as well as sight can still receive. He opens with copious quotations from the finest pages of French literature, woven together in a tender and pathetic style. His devotion to Nature is intense, and as he paints a picture he will never see again we feel that the kind Earth-Mother has consoled him. He is, to use his own beautiful phrase, "the dreamer of the open ear," and he vibrates with so much of the passionate gratitude of those to whom sun is only warmth and not light that we almost envy such high-handed resignation. The book takes us through the history (from its foundation to the present day, when it is spared among the vicissitudes of French conventual life on the plea of being "a hospital and not a school") of the only religious community in the world which receives blind women as nuns, for whom special constitutions and rules have been drawn up. We have many chapters of practical instruction on all the arts and crafts which the blind can study, and Monsieur de la Sizeranne claims that the Community of Blind Sisters of St. Paul have produced results never before equalled or attempted.

## Notes by the Way.

### A SUCCESSFUL ENTERTAINER.

On Thursday, January 31st, 1907, a public lecture was given in the school-room, Churchdown, by Dr. T. Dickson, on "*Anecdotes and How to Anecdote*." The lecture was a great success, being well attended, and a good surplus was handed over to the Vicar for the Church Fund. Dr. Dickson is open for engagement for Concerts or any Social Entertainments.—Address, The Birches, Churchdown, Cheltenham.

### ROYAL GLASGOW ASYLUM FOR THE BLIND.

The managers report that the year 1906 closed with the various departments in a very satisfactory condition, having accomplished much good during the year. Plans have been approved for providing accommodation for 130 pupils, and a scheme for providing a Holiday Home only awaits the necessary financial support. 288 persons received benefit in the shape of board, clothing, education, or employment, the amount spent on wages amounting to £7,072 17s. 10d.

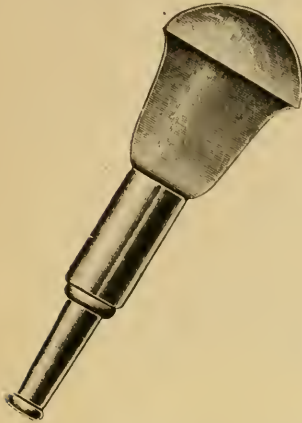

The Inspectors' Report on the school is highly satisfactory, 86 pupils passing through the school during the year. A Swimming Club and Instrumental Band are useful adjuncts of the work of the Institution.

VOL. V.

MAY, 1907.

No. 5.

## North of England Union of Institutions, Societies, and Agencies for the Blind.

THE Committee invite attention to the following particulars concerning the objects and constitution of this Union. Each of the six northern counties forming the area of our operations is represented on the committee, and we hope that the Lord Lieutenant of each County and Riding will, after the example of the Earl of Derby, accept the office of Vice-President.

The greater care of eyesight and of infant life during the last 25 years has reduced the numbers of the Blind from one in 1,000 to one in 1,250 of the population. It is the aim of this Union to induce some at least of the 1,249 to care for the one, so that he or she may make his or her way through life on terms as equal as possible with those of his or her neighbours.

On the above calculation there are probably in Northumberland, Durham, Cumberland, Westmoreland, Lancashire, and Yorkshire 8,215 blind persons, divided as below, and of these it is probable that at least one-half would not have been blind if in their infant days their sight had been duly regarded by their eyes being kept clean.

Cumberland	...	267,000	...	213
Durham	...	1,200,000	...	960
Lancashire	...	4,500,000	...	3,600
Northumberland	...	603,000	...	480
Westmoreland	...	65,000	...	52
Yorkshire—				
East Riding	...	460,000	...	368
North Riding	...	376,000	...	300
West Riding	...	2,800,000	...	2,240
Totals	...	10,271,000	...	8,215

The various Societies and Institutions in the Northern Counties are represented in the Union, but much ground is still uncovered by any active agency. The following objects lie before us :—The after-care of pupils leaving Institutions ; employment for men and women : the care of the sick, aged and helpless ; the visitation of the Blind in Workhouses and in their own homes. These objects, and the best means of attaining them, our Organising Secretary will be glad to explain to all who are interested in the welfare of the Blind.

It will be seen from the above remarks that the Union does not touch any of the work so ably carried on in every one of the existing Institutions, and that where any Blind Visiting Society is already at work we desire only to strengthen their hands and increase their income.

Mr. F. J. Munby, York, is the Chairman ; Miss I. M. Heywood, Manchester, is the Hon. Sec. ; and Miss E. Wright, 91, Northgate, Wakefield, is Organising Sec., to whom all letters should be addressed.

## Notes by the Way.

### INDUSTRIAL EXHIBITION AT WESTON-SUPER-MARE.

At the Exhibition of Needlework, Weaving, Carpentry, Brush, Mat, Basket, and Shoemaking, open to the Blind only, which was held in the Victoria Hall in March, Mr. Charles Smith, the Blind Carpenter employed by the British and Foreign Blind Association, was awarded Second Prize. Exhibits from all parts of the world were shown, and were quite a revelation to the large number of visitors. All kinds of Braille apparatus, lent by the B. & F.B.A., were also on view. An interesting feature of the Exhibition was the Blind trades in operation, and two Concerts given by a Blind Choir from Bristol were a great attraction. The Exhibition was promoted and carried out by Miss Smith, of Weston-super-Mare, who takes a great interest in all matters affecting the welfare of the Blind.

### BRADFORD BLIND INSTITUTION.

At the Exhibition referred to above the first, second, and third prizes for knitting have all been awarded to workers at the Bradford Institution for the Blind. Miss M. E. Phillips has secured the first prize of £3 for a Shetland and Persian wool shawl, similar in design to the one presented to the Princess of Wales at the Bradford Exhibition. Miss Ann Atack gained the second prize of £2 for an antimacassar of fine work and beautiful design. The third prize of £1 10s. was divided between Miss H. Firth for a Shetland shawl, Miss M. A. Oldfield for a baby doll, and Miss E. Wood for a kilted petticoat.

### LONDON SOCIETY FOR TEACHING THE BLIND.

A very successful festival was held at the Hotel Metropole on April 22nd, on behalf of the above. The Rt. Hon. Lord Alverstone, P.C., G.C.M.G., Lord Chief Justice of England, presided, and made a sympathetic appeal to the guests for their support, with the result that a sum of over £1,200 was realised. Special thanks are due to Mr. T. H. Martin, the Secretary, for his organisation of a function which all the guests are satisfied was carried out to perfection.

### GOOD NEWS FOR WALES.

We are pleased to hear that Glyn Vivian, Esq., of Sketty Hall, Swansea, is about to build a permanent Home of Rest for seven blind men and seven blind women at the Mumbles, South Wales.

VOL. V.

JUNE, 1907.

No. 6.

## Braille International Correspondence Club.

FROM the Report of the Braille International Correspondence Club we gather that the word International may now fairly be used in connection with it, the spread of the Club over the Continent being largely owing to the excellent foreign secretaries.

In 1899 Mrs. Phelps and a friend started the idea of a Correspondence with the Blind. They could both *see*, and it struck them that it might amuse and brighten those who have no eyes, to see through theirs.

Beginning with 18 Correspondents divided between them, weekly, fortnightly, or monthly letters were written as desired, describing any little amusement or interest they had enjoyed. To find Correspondents they advertised in the *Braille Weekly Summary*; the one and only rule being that applications for letters must be made by the persons desirous of receiving them and not through a friend. They had no idea of a club, but at the end of the year the letters were so much appreciated that others were asked to help.

In 1900 the numbers rose from 18 to 59, and at the end of that year the idea of forming a Club was carried out, fitting introductions to be made through the President; a notice in the *Braille Summary* to this effect brought cordial replies, and the members increased that year to 120.

In 1902 the existence of the Club became known on the Continent through a notice in *Progress*, and applications for Correspondents were received from Germany, Austria, France, and Switzerland. The contractions, accents, etc., of each language made Braille a fresh study in each, and it was soon found impossible to work a foreign country satisfactorily from England.

Monsieur Sternheim, of Lille, kindly undertook to work the Club in France. It is hard and uphill work, but the idea of the Club has seemed so useful to M. Sternheim that he has introduced it into both Italy and Spain.

In Italy the Secretary, Signor Rossi, has only twelve members, but these are constant and may bring others.

In Spain there are already 26 members, and the Secretary, Senor Asqueta, of Bilbao, says that progress, though slow, is sure, and the idea is quite understood and cordially approved.

Herr Grienberger, of Ling, in Austria, says that the Austrian Blind

do not respond well, the fact that there is no money to be made out of the Club deterring members.

Canadian and American members (owing to the great efforts of Mr. Forrester (of Halifax) number over 200, though this last year of 1906 has seen less progress for the Club in the States, owing probably to the fact that a great movement for the Blind is taking place in that country, and so much is being accomplished by free postage of all Braille matter, etc., that extraneous Correspondence is less needed than heretofore.

There are members, though not yet branches, in New Zealand, South Africa, Central Africa, India, Egypt, and Australia.

The total is close on 600 members, of whom 340 are in the British Branch.

There is also an Esperanto Branch in England for our English members, and one in Sweden, under M. Thilander, of Stockholm, where it has a more international scope. The Secretary in England is Mr. W. P. Merrick, who reports that the Esperanto Branch is doing very well, and that much interesting and valuable information is exchanged on all kinds of subjects. Miss Cather, of Malta, has devoted much time and energy to the translation into Braille of many important Esperanto books. These are circulated among the English members, who have thus an excellent opportunity of studying not only the language, but specimens of the works of famous foreign writers otherwise inaccessible to them.

The Shorthand Branch Secretary, Captain Webber, continues to enrol a few members, though Grade II. of revised Braille is now gradually superseding the Birmingham Shorthand, as it supplies a convenient and authorised form of high speed Braille.

This Club is believed to be the only Club in the world which asks for no subscriptions. Braille letters travel all over the world for the small sum of one halfpenny per two ounces. Two ounces is a good long letter, and a good letter brings cheer and comfort to lonely hearts far away where Braille Literature is scarce and friends are rare. The more members there are the more are needed, and the President, Mrs. R. H. Phelps, Braillecot, Broadstairs, Kent, will be most glad to hear from anyone, Blind or seeing, rich or poor, who will join the International Braille Correspondence Club.

## Notes by the Way.

### THE NEW AMERICAN MAGAZINE.

We are pleased to welcome this the latest publication in the interests of the Blind. Like the *Braille Review* and *The Blind*, so well-known to English readers, the *Outlook for the Blind* proposes to deal with matters not so much from the point of view of the Blind themselves, as from the standpoint of the workers in their behalf, such as officials and members of committees of schools and institutions. The first number, just to hand, appears to cover the ground very well, and if succeeding issues maintain the standard here set up, the success of the new quarterly is beyond doubt. The subscription is 50 cents per annum, single numbers 15 cents, the publishers being the Massachusetts Association for Promoting the Interests of the Blind, Cambridge, Mass. U.S.A.

### DEAF AND DUMB GOOD TEMPLAR LODGE.

The first Lodge ever constituted of Deaf and Dumb members has been instituted by the Rev. J. Thornley, at the Deaf and Dumb Institute, Sheffield. Mr. G. Stephenson, Superintendent of the Sheffield Association, is chosen as Chief Templar. The Lodge is named "Ephphatha"—the word uttered by Jesus in curing the man lacking hearing and speech, and which signifies "Be opened" (Mark vii. 34).

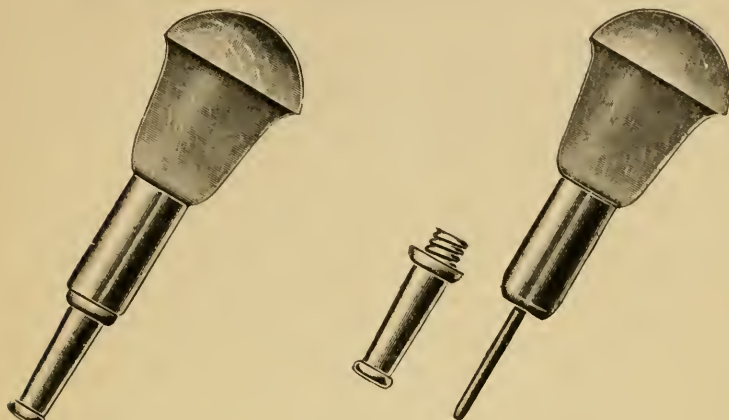

# MOLL'S SAFETY STYLE.

(Sole Rights secured by B. & F. B. A.)

VOL. V.

JULY, 1907.

No. 7.

## Braille System for Algebra. ✓

THE Association is at present engaged in publishing a work on Elementary Algebra, written by the popular writer of Mathematical text-books, Mr. Charles Smith, Master of Sidney Sussex College, Cambridge.

The system of Mathematical notation adopted in this work has received a certain measure of approval, and in the absence of any adverse criticism the same system would in all probability be used in any other books of a Scientific character which the Association might undertake to publish in Braille type.

The Braille edition of this Elementary Algebra will consist of five volumes, three of which are already published. In the third volume a full account of the Mathematical notation and of the special contractions and abbreviations used in the whole work is given. It would be a great kindness to the Blind if any persons interested in the publication of Mathematical and Scientific books in Braille type would forward any criticisms they may have to make on this work to the Secretary of the B. & F. B. A. at as early a date as possible, so as not to delay the publication of other Scientific works in Braille.

## International Congress on School Hygiene.

AT the Second International Congress on School Hygiene, to be held in London from August 5th to 10th, 1907, the following subjects are down for discussion, papers to be read by the gentlemen named in each case: "The Present Necessity for Attention to the General and Special Hygiene of the Blind," Rev. St. Clare Hill, M.A.; "The Definition of Blindness in Children—Its Causes and Prevention from a Medical Point of View," Adolph Bronner, Esq., M.D.; "The Mental Characteristics associated with Blindness of Varying Causation, and their Relation to Training," N. Bishop Harman, Esq., F.R.C.S.; "Feeble-minded Blind," H. J. Wilson, Esq. All information respecting this Section may be obtained from the Hon. Secretaries, Messrs. B. P. Jones and William Van Praagh, at their offices, 11, Fitzroy Square, London, W.

## Annual Reports, etc., of Blind Institutions.

### SOUTH LONDON INSTITUTE FOR THE BLIND.

THE past year has been marked by a very notable event in the history of this Charity, the Foundation Stone of the New Institute being laid on May 24th, 1906, by His Grace the Duke of Argyll. Founded by the late Mr. James Hampton some thirty-six years ago, the work had altogether outgrown its accommodation, hence it was decided to provide a special and permanent building. This is now within sight of completion, but funds are still needed to meet the cost, and to equip the new premises.

A successful year is recorded in the Report, and without doubt the Committee will be in a much better position to deal with the various calls upon their sympathy and assistance, ranging from the placing of a child in a school or institution to the visiting and providing medical attention for the aged blind poor in their own homes.

We wish them every success in their efforts to brighten the lives and meet the needs of the Blind community of South London.

### BRADFORD INCORPORATED INSTITUTION FOR THE BLIND.

From the forty-sixth Annual Report we gather that considerable advance was made during 1906, in the Trade Department the number employed having increased from 86 to 98, the Sales from £11,835 to £12,165, and the Wages, etc., paid to Blind from £2,044 to £2,377.

A Men's Training Home was established during the year under a scheme by which the Bradford Board of Guardians meet the deficiency between cost of maintenance and sale of goods produced.

The Choir of the Institution gave several musical services, clearing some £35 for the benefit of the Institution.

*The Bradford Daily Telegraph* Holiday Fund is administered by the Committee, and 98 persons benefited during the year. In this connection a Seaside Holiday School was held at Morecambe, the children from one of the Schools for the Blind being transferred, with the necessary appliances, for a fortnight. This experiment proved a great success.

## Notes by the Way.

### BLIND SINGER GAINS GOLD MEDAL.

At a musical Festival recently held at the Alexandra Palace, Mr. Ernest Littlewood, of New Southgate, gained the First Prize and Gold Medal for singing. There were twenty other competitors in the bass section, the two pieces being: "Twice Ten Hundred Deities" (Purcell) and "The Little Red Fox," an old Irish air. Mr. Plunkett Greene, the adjudicator, said that Mr. Littlewood's rendering of the difficult Purcell piece was "a very remarkable piece of work," and showed "a tremendous sense of really good style," while the humorous touches in the Irish air came in for mention. Our congratulations to Mr. Littlewood.

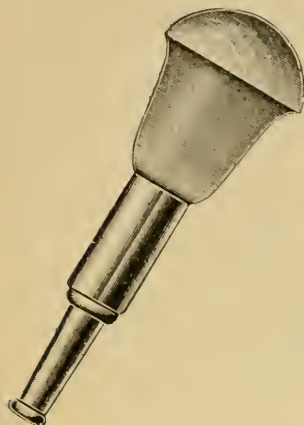

### BLIND ORGAN COMPOSER WINS HAMBOURG PRIZE.

Mr. Wm. Wolstenholme, who has won the first of the two prizes awarded in connection with the Hambourg competition, is best known as an organ composer, though he has written much for piano and strings. He is the son of a Blackburn architect, and has been blind from birth. He was educated at Worcester, where one of his musical tutors was Edward Elgar, who afterwards showed his affection for his pupil by acting as his amanuensis when he took his Mus. Bac. at Oxford. I believe he took his degree at an earlier age than anyone previously. Mr. Wolstenholme, who came to London as organist at King's Weigh House, is now at the church in Norfolk Street. He is known throughout the country by his organ recitals.

Barnard, M.A., Headmaster (himself blind), College for the Higher Education of the Blind, Worcester. Letters answered in Braille if desired. Scholarships and terms to meet all requirements.

### BRAILLE WRITING INDICATOR.

Clip with pointer shows where the last sign was written. Price 2d., by post 3d. (if sent alone).

VOL. V.

AUGUST, 1907.

No. 8.

## The Report for 1906. ✓

FROM the Report of the Association which is now published it will be seen that every section has been kept very busy during the year, overtime work in the embossing and binding sections having been necessary on many occasions. The pressure of orders for works already catalogued has prevented the publication of several new works which have been stereotyped, but a fourth embossing press has been installed, and it is hoped to overtake the arrears in this direction during 1907. The work consequent upon the sanction of the Revised Rules for Braille, Grades I. and II., in August last, has also been very considerable, and from the New Publications List on page 4 of this Magazine it will be seen that we are losing no time in supplying School Books in Grade II.

The placing on the market of the first fifty copies of the cheap edition of the Gospel according to St. John, within a fortnight from the date when ordered by the Council, will serve to convey some idea of the present capabilities of the establishment. 300 copies in addition have since been sold, and the Gospel of St. Matthew has also recently been published, with the Gospel of St. Mark in preparation. The Gospel of St. John was issued at a price much below our usual "under cost" scale, but the appreciation shown by the large number of orders will, without doubt, commend the concession to the supporters of the Association.

Altogether 28 new volumes were published during the year. Including orders, magazines, etc., the number of plates stereotyped was close upon 5,000, a considerable increase on last year's number.

The Music and MSS. sections have again been kept fully occupied, although the increased charge for music transcription has tended to curtail the orders during the year. But even at the increased rate a considerable loss was incurred. However, in view of the undoubted usefulness of this branch of the work it is not proposed to limit it further, but to execute all orders sent, as quickly as possible. Some 60 orders were executed, making over 500 sheets. About 125 other MSS. orders were dealt with, including German, Latin, Greek, and Italian transcriptions.

Some 250 volumes were copied by outside Blind Writers, who make a very appreciable addition to their income by engaging in this useful work.

In addition to the greatly increased production above mentioned, the number of magazines, Christmas and other Letters, etc., embossed, shows an increase on the previous year.

The result of the year's working amply justifies the establishment of the Bookbinding Department, since in addition to the folding, stitching, binding, etc., of our own books published, nearly 800 volumes of MSS. were shellaced and bound, this number being about 300 more than that of last year. This Department has outgrown its accommodation, and an extension has recently been made.

The production for the year of Sighted Grade Books, stationery, postal labels, magazines, magazine and pamphlet covers, etc., together with orders from outside firms, shows a most satisfactory result, considering the small size of the equipment.

## Notes by the Way.

### **BIRMINGHAM INSTITUTION FOR THE BLIND.**

In view of the serious lack of workshop accommodation in connection with the Birmingham Institution for the Blind, a scheme is being considered for erecting new shopping on the land at Harborne, for which funds are necessary. The report for the past year states that the workshops at Edgbaston were crowded to their utmost limits, and the site will permit of no more extensions. The difficulty has been brought about by the continual development of the trade department and the ever-growing number of blind applicants for work, there being now fifty on the waiting list.

The number of blind persons receiving direct benefits continues steadily to grow, the total of 704 being 31 in advance of those of the previous year. Two new occupations have been introduced during the year—weaving and telephony. There is now a private branch telephone exchange in the institution, and in view of the rapidly growing number of private exchanges in the district it is most useful for training blind telephone operators.

On account of a chronic state of ill-health, or unsuitability of other kinds, a considerable percentage of blind persons leave the institution every year without having materially benefited; over this condition of things the committee have no control, and there is an urgent need of suitable homes where those blind persons incapable of receiving instruction might be received and kindly treated for life.

The turnover in the trading department reached the record sum of £10,956, an increase of £686 over last year's figures. The wages and allowances to the blind workers have also more than correspondingly increased, having reached the highest point yet attained—viz., £3,281, which is £284 in advance of last year's total. The blind as wage-earners are at a great disadvantage, only earning about one-half what a sighted worker at the same trade can earn. To meet this a sliding scale of augmentation has been adopted during the past year by the committee, whereby blind workers received a bonus sufficient to enable them to live.

---

**FOR SALE.**—In Braille type: "Algebra for Beginners," Todhunter, M.A.; "Geography of Ancient Palestine," Butler; "Epistle to the Romans." SEPTEMBER, 1907.

No. 9.

## Worcester College for the Blind.

### ANNUAL SPEECH DAY AND PRIZE DISTRIBUTION.

THE annual Speech Day and prize-giving at the Worcester College for the Higher Education of the Blind, held on Thursday afternoon, July 25th, 1907, was particularly interesting, and though the weather left much to desire, a large audience assembled in the new gymnasium and enjoyed both the speeches and the music provided. As a prelude a short organ recital was given by a late pupil and now distinguished Bachelor of Music, Mr. W. Wolstenholme, who contributed three items (one of which was composed by himself), with great taste and feeling.

At the conclusion of the recital Lord Cobham took the chair, and in his opening remarks referred to the steady progress, both in numbers and attainment, during the past year, also the improvement in the financial position augurs well for the future. To do all they would like would take some twenty thousand pounds, and towards this they had as yet only seven or eight hundred. Amongst their greatest needs was a good playground which would admit of games being played in bad weather; they hoped to have this by next winter. Also the endowment, which was only £250, should be £300 to enable them to pay adequately the salaries of the staff. But Lord Cobham had confidence that when the public knew their needs and recognised that the boys at this college compared very favourably with those at other public schools, funds would be forthcoming.

The Headmaster (the Rev. T. Barnard) in a very humorous speech spoke with real pride and pleasure of the signal successes won by old students of the college, three notable examples being on the platform in the persons of A. W. G. Ranger, Esq., M.A., D.C.L., the Rev. H. J. R. Marston, and the Rev. N. F. McNeill. The re-union of old and present students was evidently a very pleasant occasion, and one which was fully appreciated both by the headmaster, himself an old boy, and many others present. Mr. Barnard paid a graceful tribute of gratitude to the Governors, "who had worked like slaves for the success of the college."

Canon Wilson, secretary of the local committee, gave an excellent idea of the scope and extent of the present students' attainments as judged by the report of the examiner. Out of the number of about 120 pupils who have passed through this unique college, the extraordinary number of 55 have graduated at one or the other of the Universities. The Canon invited more outside co-operation with the College by means of lectures and readings to the boys.

An acceptable programme was rendered by the students, consisting of Latin and Greek recitations, music, vocal and instrumental, including a "School Song" (the beautiful words of which were written by the Rev. T. Barnard, and the music composed by W. Wolstenholme, Mus. Bac.), and a little dramatic sketch entitled "Alfred and the Cakes." At its conclusion Viscountess Cobham presented the prizes to the successful students. After the usual votes of thanks Mrs. Barnard very hospitably entertained her guests to tea. A beautiful basket of roses was presented to Viscountess Cobham by Mrs. Barnard's tiny little girl, to whom her father amusingly alluded as his eldest unmarried daughter.

## Notes by the Way.

### BELFAST SOCIETY FOR HOME MISSION WORK.

Some 450 names are now on the visiting list of this Mission, Blindness and its attendant poverty being reported to be on the increase.

The Spectacle Mission and the Clothing Guild have been most useful during the year in securing greater comfort for a large number of persons, and several other auxiliary efforts, such as Garden Parties, Holidays, Coal Tickets, Christmas Dinners, and the starting of Tea Agents, have supplemented the usual visiting, medical attention in cases of threatened blindness, teaching of Braille reading and writing, knitting classes, etc. The blind children of the city have received special attention during the year, several being taken from unfavourable environment and placed by the Mission in suitable Homes or Institutions. In fact, wherever the need for a new branch of work is revealed the Committee show a most commendable zeal in endeavouring to meet that need, and we wish them continued success.

### NEW SOUTH WALES INSTITUTION.

The Training of the Blind at the above Institution is but one section of its operations, the Deaf and Dumb also being received, and from the Report for 1906 we learn that there were 13 male and 8 female Blind pupils on the roll at the end of the year, out of a total of 94. The Inspectors' Reports showed an average proficiency of 80, 75, 73, 74 and 75 per cent. respectively in the classes, reading, writing, and dictation (Braille) reaching as high as 90 per cent. in classes I., II., and III., and being but slightly lower in classes IV. and V.

---

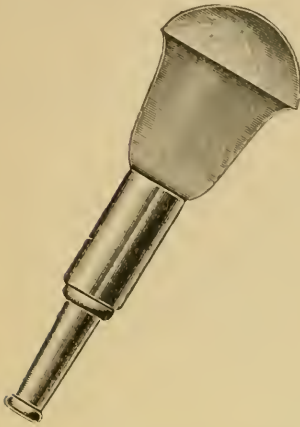

**FOR SALE.**—In Braille type: "Algebra for Beginners," Todhunter, M.A.; "Geography of Ancient Palestine," Butler; "Epistle to the Romans." "Die Junfrau von Orleans" (unbound). VOL. V.

OCTOBER, 1907.

No. 10.

## The Late Mr. Timothy Holmes.

IT is with profound regret that we announce the death of Mr. Timothy Holmes, F.R.C.S., who was closely connected with the late Dr. Armitage in the management of the Association at Cambridge Square, and for some time the Chairman of the Council, which position he resigned owing to advancing years, but was up to the time of his death a member of the Executive.

Mr. Holmes graduated as B.A. at Cambridge in 1847, and immediately afterwards entered as a student at St. George's Hospital. He became F.R.C.S. in 1853, and was soon afterwards appointed assistant surgeon to the hospital. He was for a long period full surgeon; and, on retirement from active duty with the title of consulting surgeon, he became joint treasurer with the late Duke of Westminster, and until recently was an assiduous attendant at the meetings of the Board, besides exercising a close and continuous supervision over the general conduct and working of the institution. For many years he was chief surgeon to the Metropolitan Police, and he has been president of the Royal Medical and Chirurgical and of the Pathological Society. He has been a vice-president of the Royal College of Surgeons, and Hunterian Professor of Surgery and Pathology to the College. His surgical writings have been numerous and valuable, including important contributions to a "System of Surgery," of which he was editor. Jointly with the late Dr. Bristowe he was author of an exceedingly important report on hospitals to the Privy Council.

Mr. Holmes was a man of wide reading and extensive and accurate scholarship, who was unwearied in endeavouring to impress upon his pupils the bearing of such attainments upon both the comprehension and the practice of their profession. He was also a man of stainless honour and integrity, throughout whose long career it could perhaps never be said of him that he had deviated by a hair's breadth from the highest traditions of his calling. To the present generation he had become little more than a name; but, during the active period of his life, there were few surgeons who commanded in an equal degree the respect of the medical profession and of the public.

## A New Magazine for Children.

COMMENCING on October 5th, we are publishing a Magazine for Children in contracted Braille, with a few pages of Grade I. Braille for the little ones.

The title will be *Golden Sunbeams (Extracts)*, as the stories, etc., will all be reproduced from the sighted *Golden Sunbeams*, the official Magazine of the Sunbeam Mission. Permission to reprint in Braille has been kindly granted by the Society for Promoting Christian Knowledge. We are assured of the hearty support of Miss Beatrice Taylor, the energetic Hon. Sec. of the Blind Branch of the Sunbeam Mission, and it is hoped that the new venture will commend itself, not only to those who are unable to write Braille, enabling them to carry out the undertaking made on joining the Branch, but also to all who are interested in the welfare of blind children.

### Notes by the Way.

#### THE GOSPELS IN GRADE II. BRAILLE.

Our readers are probably aware that the Revised Version of the Gospels, St. John, price 6d., and St. Matthew, price 1s. 3d., have recently been published in Grade II. Braille, *interlined*. We are now issuing St. Mark, price 9d., in Grade II., and in response to many requests this is *interpointed*. The above prices are for paper covers only, but copies can be supplied bound in limp cloth, 6d., or cloth boards 1s. extra, in each case, also postage is 2d. extra.

#### SUNBEAM MISSION, BRANCH FOR THE BLIND.

From the Report of the above we learn that this branch is worked principally through the teachers of Council and other schools, and the only obligation entailed by joining is the sending to a child, month by month, a letter or a short story in Braille. Unsolicited help, however, is given in various other ways; many of the children are sent away for change by kind "Sunbeam" friends, and gifts of Braille books, toys, Letters for Convalescent Homes, Gospels in Braille, garments, etc., are gratefully received by the Hon. Sec. for distribution. An offer was made this year to supply the remainder of 5s.—the cost of a Braille frame and a pound of paper—to every child on the Sunbeam Mission list attending the L.C.C. Schools who saved up 2s. by the end of June. A large number have availed themselves of this opportunity.

It would be impossible to enumerate the various ways in which help can usefully be given, but Miss B. Taylor, the Hon. Sec., Branch for the Blind, 39, Sylvan Road, Upper Norwood, S.E., will be pleased to advise on the matter, and turn to good account any help offered.

---

**FOR SALE.**—In Braille type: "Algebra for Beginners," Todhunter, M.A.; "Geography of Ancient Palestine," Butler; "Epistle to the Romans" (Greek). "Die Junfrau von Orleans" (unbound). In Roman Embossed Type: "Horace" (Book III.); "French Grammar," Wuellemis; "Selection of English Poetry," chiefly from Standard Authors; "Joan of Arc" (German), Schiller; "Ruth"; and "Ruth," chaps. I. to IV. Also Writing Frame and Arithmetic Board. Offers to the Secretary of the B. & F.B.A.

---

#### *In Preparation.*

On Organ Playing, by ARTHUR PAGE, F.R.C.O., who has kindly given permission for its publication in Braille.

**LARGE DOT  
BRASS GUIDES**

(Single line), for use on Small size Frame.  
Price 2s. each.

VOL. V.

NOVEMBER, 1907.

NO. II.

## “Channels of Blessing.” L

THIS Magazine was started in January, 1898, a small Manuscript Booklet of 100 lines, one lady giving a shilling to pay the first month's expenses, which donation she could not promise to repeat; and another lady promising to contribute two small sheets of Devotional reading monthly. Now, our monthly expenses are about £10; we have a staff of six able writers, besides ladies who copy from sighted journals, and the present issue comprises 480 copies. The Magazine has found its way to all parts of the United Kingdom, to Australia, Burma, Canada, Egypt, India, New Zealand, Nova Scotia, Queensland, South Africa, U.S. America, and Urfa (Asia). When we consider the insignificance of the beginning and the weakness (humanly speaking) of the principal agent, we adoringly say, “This is the Lord's doings, and it is marvellous in our eyes.”

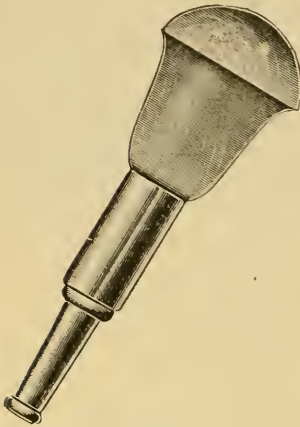

The annual cost of the Magazines to each recipient is 4s. 6d., or with foreign postage 6s. It was never expected that the Blind could meet these expenses themselves, but we rely on the loving sympathy of those who are blessed with sight, and would respectfully ask for more liberal support that we might either enlarge the present bi-monthly, or issue forty-four pages monthly, which would still be a small magazine when compared with the religious journals of the sighted. We would point out that the only expenses incurred are for embossing, printing, and postage. Each helper gives his or her services, and those who can do so also assist the Funds, and we have no office expenses; therefore every penny given to the Magazine Fund is devoted to the spiritual welfare of the Blind. We are desirous of establishing a “Work Guild,” to which blind or sighted persons might send useful articles to be sold for the benefit of the Magazine; if some lady will kindly undertake the secretaryship we shall be truly grateful. Until this can be arranged, articles may be sent to Mrs. H. G. Oke, Purcell Lodge, 30, Trinity Square, Margate, who will procure the best possible price for the same and faithfully hand the sums realised to our Treasurer.

Our Annual Report, containing a facsimile of the October-November double number, is now ready, and will be sent free to persons desirous of knowing more of our work, or of collecting money for the Funds. Applications for Magazines, which are also sent free, should be made to Edwin Norris, 21, St. Peter's Road, St. Leonards-on-Sea, by whom donations and subscriptions, small or large, will be gratefully received.

**LARGE DOT  
BRASS GUIDES**

(Single line), for use on Small size Frame.  
Price 2s. each.

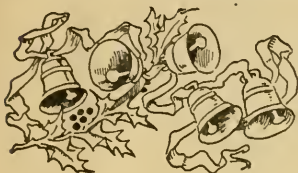

VOL. V.

DECEMBER, 1907.

No. 12.

*May happiness bless all your  
way,  
Unstinted in its measure.*

ONCE more we have arrived within sight of the Christmas season, and heartily wish our readers "A Merry Christmas and a Prosperous New Year." The past year has been marked by an increased activity on the part of the Association, chiefly in endeavouring to provide the schools and institutions with a sufficient variety of educational works in Grade II. A glance at the list on pages 3 and 4 will give some idea of the extent to which this has been done, and it will also be noted that the last of the four Gospels (Revised Version) will be ready during this month.

May we also take this opportunity of pointing out that all this extra effort on behalf of the Blind entails increased expense without the corresponding increase of income which would reasonably be expected in an ordinary business, and appeal for such increased support as will enable us to continue this useful work. When considering how best to give effect to the generous impulses of the festive season we hope that you may remember the Association, as we not only deserve, but need, an increased support to enable us to do still more in the future for the welfare of the Blind.

Commencing with the issue of December 7th we are producing, on behalf of the proprietors, the Braille edition of the *Daily Mail*. The cover pages are open for advertisements, as before, and the scale of charges will be forwarded on application to the Secretary.

**SOLID BRASS  
FOOT RULES  
FOR  
THE BLIND.**

## Notes by the Way.

### BRaille CHRISTMAS CARDS.

This year we have a nice selection of floral and other Text Cards, with a suitable Christmas Text or Motto in Braille, neatly corded ready for hanging up, price 2d. and 3d. each. Please order early to avoid disappointment.

### NEWS FROM THE CONTINENT.

Walter H. Dixon, Esq., of Oxford, sends an interesting account of his holiday trip on the Continent. He says: "I had a few days in Paris, a night in Lucerne, a fortnight in Rome, a short time in Florence, a glance at Naples, Pisa, and Venice, and a few more days in Paris. Altogether I had quite a good time, in spite of various runs of ill-luck. In Blind matters Paris is extraordinarily go-ahead, for they have 1,500 voluntary writers. Miss Bulwer was away, so I could find out nothing of what was doing in Rome, but the Italians seem to be very much behind the times from what I saw in Florence, although the *Mentore dei Ciechi* dates back to 1877, and is thus the oldest Braille magazine in the world."

### GRIMMS' FAIRY TALES.

Vols. XII. to XVII. are now ready, thus completing the work. The whole of the seventeen volumes are in uncontracted Braille, with complete stories in each volume, and for the information of intending purchasers we continue the following list of the stories in each volume:—Vol. IV.: The Three Golden Hairs, The Wood-Louse and the Flea, The Girl with No Hands, Clever Hans, The Three Languages, Clever Elsie, The Tailor in Heaven, The Three Magic Gifts, Thumbkin, The Wooing of Mrs. Fox.—(*Continued.*)
